

APPLICATION

- ▶ Suitable for residential and light commercial folding doors.
- ▶ Ideal for use on servery hatches, appliance storage and bar areas in homes, restaurants, shops and offices.
- ▶ No bottom guide channel is necessary.

DOOR SPECIFICATION

Track System: Servery 9

For Individual Leaves:

Max Leaf Height 1200mm

Max Leaf Weight 9kg

Max Leaf Width 375mm

Min Leaf Width 150mm

Min Leaf Thickness 18mm

'Servery 9' is designed for end folding units of two, four, six or eight leaves pivoted to each side of the opening leaving a clear counter top.

Leaves should be made of equal width, allowing 1 to 2mm clearance between leaves and 6mm clearance between end leaves and jambs.

STANDARD SETS AND FITTING PACKS

Sets suitable for folding four, six or eight leaves to one side comprise – track, buffer, top socket assembly, top pivot, bottom pivot, bottom jamb bracket, hanger(s), hinges, all screws and fitting instructions.

Set No.	Opening Width
SY4	1518mm for four leaves pivoted from one side
SY6	2274mm for six leaves pivoted from one side
SY8	3030mm for eight leaves pivoted from one side

Pack No.	
1740B	Basic two leaf pack includes – bumper; top pivot assembly, top pivot, bottom pivot, jamb bracket, one hanger, two hinges, spanner, all screws and fitting instructions.

1740A	Add-on two leaf pack includes – one hanger; four hinges and all screws.
-------	---

To create your own unique application, not covered by the standard sets, select for each folding unit, one 1740B basic pack, sufficient 1740A add-on packs and a suitable length of 1740 track – see below.
